# HACKATHON DETAILS

The Hackathon will begin at 6 pm, November 13,  
And ends at 6 am, November 15th.

The hackathon will last for 36 hours.

We will receive updates twice.

On the 12-hour mark, participants have to submit the **Documentation**(Use Case, Activity Diagram, Data Flow Diagram, Architecture Diagram), **Brief solution explanation** and **Git link**. Participants have to submit the documentation again before the 36 hour mark.

# GIT INSTRUCTIONS

You have to create a Git repository named **HackTheVerse\_\_TeamName** (i.g HackTheVerse\_\_ITverse ) for the contest.

You must keep the Git repository **private** while the hackathon goes on.

**After the hackathon ends**, you have to make your git repository **public** for the judges to view and evaluate.

# CHANNEL OF COMMUNICATION & HELPLINE

We will conduct our activities on **Slack**.

We will send you an **invitation via mail for joining Slack**. There will be a suggestion portal. Participants can refer to the portal for any query.

The judges of the first-round will join you in short Q/A sessions during the 36 hours of the hackathon.

## PROBLEM HINT

The hint for the problem for the problem category “**Education**” is as follows:

“**Limitations of experimental education in distance learning.**”

See you in the first round tomorrow! Best of luck!
